PROFILE

As a node.js trainee at Crest Infotech since May 17, 2024, I specialize in web backend development with Node.js, MongoDB, JavaScript, and Express.js. I aim to leverage my skills and experience to secure a full-time backend development role after my six-month internship. Passionate about emerging technologies and innovative solutions, I thrive in collaborative, cross-functional team environments.

SKILLS

JavaScript
MongoDB

Bootstrap
Version Control (Github)

Node.js & Express.js
Swagger (API Documentation)

PROFESSIONAL EXPERIENCE

Crest Infotech

May 2024 - Present

Nodejs Trainee

- Developed KITE, a backend internet forum showcasing training-acquired skills.
- Secured APIs with JWT authentication and implemented mailing and OTP systems.
- Built backend using Node.js, Express.js, and MongoDB.
- Documented APIs with Swagger UI and also tested with Postman.
- Applied Express Validator for input validation and API reliability.
- Currently integrating an EJS-based admin panel for database management.
- For development purpose used Visual Studio Code and used Github for version control.
- Project link : <https://github.com/iftekharOsix/KITE>

Infolabz

July 2023 - August 2023

Web Developer Intern

- Completed a 2-week internship focusing on JavaScript fundamentals, ES6 features, and React.js basics.
- Analyzed a dynamic web application model, NewsWeb, built with React.js and integrated with a news API.
- Explored API integration and React's component-based architecture.

Web Forum (GTU)

2022 - 2023

Project Contributor

- Collaborated with a team of three to develop a university-based web forum project.
 - Designed and implemented both the frontend and backend using PHP, MySQL, and Bootstrap.
 - Gained valuable experience in teamwork, creativity, and problem-solving.
-
