

IFTEKHAR J. ANSARI

WEB DEVELOPER

ABOUT ME

I am a dedicated IT student with a strong focus on web development, specializing in backend development. My goal is to secure a position in an organization that allows me to expand my skills and knowledge along with contributing to the growth of the organization.

SKILLS

- Programming Languages: JavaScript, C, Java
- Backend Technology: Nodejs, MongoDB
- Frontend Technology: Angularjs, HTML, CSS, Bootstrap
- Version Control: Github
- Software Development: Agile methodologies
- Communication: Good teamwork and communication abilities.
- Adaptability and Flexibility: Quickly adapting to changing project requirements for timely, high-quality completion.

EXPERIENCE

WEB FORUM

University team based project (2022-2023)

- I worked as a backend developer on a university team project. We created a PHP, MySQL, and Bootstrap-based web forum for technical discussions. I have worked in backend. I improved my teamwork, creativity, and adaptability skills while using VS Code.

Internship at Infosys

Dynamic Web page using React js (Aug-2023)

- Completed a two-week internship at Infosys. We have learned about the API's and implemented data fetching from API's to enrich the applications content and features.
- It is basically a dynamic news website which represents the news data from an API.
